Preface

Economic Census is a joint effort and huge administrative exercise which provides official count of all establishments irrespective of their size in terms of employment including those in the unorganized sector. The Economic Census is undertaken quinquennially however, sometimes with intervals of 5-8 years conducted under the technical guidance and support of Ministry of Statistics & Programme Implementation, GoI.

The field work of Sixth Economic Census was conducted during January-June 2013 in the state. Field work of the Sixth Economic Census was undertaken in two phases. In the first phase non-snowbound areas of the state were covered and in the second phase snow bound areas including Leh and Kargil were covered. The field operations of the census were completed as per the stipulated time frame.

This Census is Sixth in the series and has several new salient features. To synchronize the results of the Sixth Economic Census with population census 2011, Enumeration Blocks of population census 2011 were used to enhance its utility. Secondly, handicraft/handloom establishments, proprietary establishments owned by women and their source of finance etc were identified separately along with number of persons working therein, which is an addition in the scope of Sixth Economic Census.

The report contains information on the total number of entrepreneurial units in agriculture (excluding crop production and plantation) and non-agriculture(except public administration and defence) and the total number of persons usually working therein.

The present report provides detailed information on various characteristics of the entrepreneurial activities viz., location kind of ownership, nature of operation, employment status, registration particulars, sources of finance etc. the data generated under Sixth Economic Census will provide necessary frame for launching of follow up socio economic surveys on different sub-sectors of unorganized agriculture sector.

I take the opportunity to thank the Chief Secretary, J&K and the Administrative Secretary, Planning, Development & Monitoring Department who provided full support and guidance in undertaking the gigantic task without which it would not have been possible for the Directorate to complete this exhaustive exercise as per its time schedule.

I also extend my thanks to all the District Development Commissioners for providing full administrative support for successful conduct of this detailed exercise. I am thankful to the enumerators and supervisors who worked under the directions of respective

District Statistics & Evaluation Officers and made this programme a grand success.

I further place on record the tireless efforts of the Economic Census staff of the Directorate of Economics & Statistics for successful conduct of Sixth EC and bringing out the report.

I am sure that the report will be useful to administrators, Policy makers, researchers, academicians and other stakeholders.

Suggestion or improvements on this report are most welcome.

(R.A. Bandy)
Director General
Economic & Statistics

- The Sixth Economic Census (EC) covered all the districts of J&K State.
- Field operations were conducted in two phases in J&K. Non-snow-bound areas were covered in the first phase and the work there started from ending January 2013 and was completed within two-three months. The snow bound areas were covered in the months of May-June, 2013. Thus, the field work in the entire state was completed during January – June, 2013.
- The Sixth Economic Census covered all establishments engaged in various agricultural and non-agricultural activities excluding crop production, plantation, public administration, defence and compulsory social security.
- Data for handicraft/handloom establishments were collected for the first time.
- Enumeration Blocks (EBs) of Population Census, 2011 were used as the primary geographical units for collection of data.
- As per the Sixth Economic Census (2013), out of total 501949 establishments, 295386 establishments (58.85%) were found in rural areas and 206563 (41.15%) were found to be located in urban areas.
- Out of 501949 establishments, about 96.69% establishments (485319) were engaged in non-agricultural activities (excluding public administration, defence and compulsory social security activities) while the remaining 3.31% establishments (16630) were found to be engaged in agricultural activities (excluding crop production and plantation).
- The total number of establishments in the state of J&K increased from 324908 in 2005 (EC2005) to 501949 in 2013 (EC2013), registering average annual growth of 6.81% over an intervening period of about eight years between Fifth EC and Sixth EC. The growth was 7.66% in rural areas and 6.52% in urban areas.
- During the period between the two Economic Censuses (2005 & 2013), non-agricultural establishments grew at the rate of 6.32%, while agricultural establishments grew at the rate of 67.92%.
- Compound annual growth rate in establishments during the period 2005-2013 has been recorded at 5.59%, the relative figures are 4.82% (rural) and 6.16% (urban).
- Out of the total establishments, 3.31% belongs to “primary sector” of which Livestock sector constitutes 2.83%. 25.48% belongs to “secondary sector”

(including manufacturing which contributes 23.68%) and 71.21% pertain to “tertiary sector”.

- 333271 (66.40%) were Own Account Establishments (i.e. establishments without any hired worker) and the remaining 168678 (33.60%) were establishments with at least one hired worker. Own Account Establishments grew at the rate of 60.85% while the growth of establishments with hired workers was 43.30%, since 2005.
- Out of 501949 establishments, around 91.37% establishments were under private ownership and remaining 8.63% establishments reported their ownership as Government or PSU. Proprietary establishments were 81.77% (410422).
- About 10.19% establishments operated from outside household without any fixed structure. While establishments outside household with fixed structure account for 72.65% at state level, the percentage of establishment seen operating inside household amounts to 17.16%.
- Establishments with 8 or more workers amount to 1.76% of total number of establishments, the corresponding figures are 1.58% and 2.02% for rural and urban areas respectively.
- Majority of the establishments (91.07%) were perennial in nature. Around 7.80% of the establishments were seasonal and remaining 1.12% of the establishments were casual.
- Livestock was the major economic activity (85.55%) of agricultural sector. Retail Trade (38.54%) followed by Manufacturing (24.50%) were the dominant ones within the non-agricultural sector.
- Number of establishments per square km is 4.71 and for per lakh of population the figure is 4002.37.

- 81.77% of the establishments were owned by proprietors.
- Among the proprietary establishments, 7.62% were owned by females.
- 64.87% of the establishments were owned by followers of Islam, 26.83% by the Hindus, 1.35% by Sikhs and the rest (6.95%) by the followers of other religions.

- Around 1095509 persons were found employed in 501949 establishments. Among all employed persons 599347 (54.71%) were employed in rural areas and 496162 persons (45.29%) in urban areas. While employment in Own Account Establishments was of the order of 399420 persons (36.46%), the employment in establishments with at least one hired worker was about 696089 persons (63.54%). Agricultural establishments provided employment to around 34181 persons

(3.12%) and the non-agricultural establishments provided employment to around 1061328 persons (96.88%).

- Contribution of employment share of hired workers is 52.42% and that of not hired, is 47.58%
- Overall average employment per establishment in Sixth EC was 2.18 whereas average employment per establishment was 1.20 for OAE and 4.13 in case of establishments with atleast one hired worker.
- The growth rate of employment since 2005 was of the order of 45.77%.
- Compound annual growth rate in employment during the period 2005-2013 has been observed at 4.82% with breakup of 6.32% in rural areas and 3.24% in urban areas.
- Out of the total employment of 1095509 persons, 891213 persons (81.35%) were male and 204296 persons (18.65%) were female.
- Number of males per establishment has scaled down from 2.03 (fifth EC) to 1.78 observed in Sixth EC, measuring decrease of (-) 0.25%.
- The significant and main highlight has been increasing participation of women in economic activities. A comparative study reveals that the number of females employed per establishment has appreciably increased from 0.28% observed in fifth EC to 0.41% as per Sixth EC.
- 19.35% of the workers were employed in Government or Public Sector Undertakings, 67.45% of the workers in proprietary establishments and rest 13.20 % in Private Companies/SHGs/Cooperatives etc.
- Around 574310 persons (52.42%) were hired workers and the remaining 521199 persons (47.58%) were not-hired workers. Among the total workers, 81.35% were male and 18.65% female.
- Manufacturing sector was the largest employer providing employment to 273444 (24.96%) persons. This was followed by retail trade employing 254141 persons (23.20%) and education sector employing 185497 persons (16.93 %).
- Distribution of establishments by size class of employment reveals that around 479318 establishments (95.49%) were having 1-5 workers, around 15116 establishments (3.01%) were having 6-9 workers, while 7515 establishments (1.50%) employed 10 or more workers.
- The top five Districts viz. Jammu (15.14%), Srinagar (14.40%), Badgam (8.45%), Baramulla (7.89%) and Anantnag (7.85%) accounted for more than half (53.73%) of the total employment in the State.

- Overall average employment per establishment in Sixth EC was 2.18, as against 2.31 in Fifth EC.
- Total number of establishments owned by women entrepreneurs was 31292 (6.23%). These establishments provided employment to 69067 persons (6.30%), out of which 28471 (41.22%) were without hired workers. About 72.90% of the workers were employed in the establishments hiring less than 10 workers.
- Out of establishments under women entrepreneurs, about 1306(4.17%) belonged to agricultural activities, with livestock dominating therein having a share of 94.64%. Among non-agricultural activities owned by women entrepreneurs, manufacturing and retail trade were the dominant ones with corresponding percentages being 55.83% and 18.24% respectively.
- Out of the total establishments under women entrepreneurs, percentage share of various social and religious groups was as follows: OBC: 8.23%, SC: 5.84%, ST: 6.53% and Others (79.39%); Hindus: 17.80%, Muslim: 57.45% and Christian: 0.28%.
- Among the districts, the largest share in number of establishments under women entrepreneurship was held by Jammu (13.44%) followed by Badgam (13.27%), Srinagar (13.07%), Anantnag (11.67%) and Baramulla (8.58%).
- Average employment per establishment for women owned establishments was found to be 2.21.
- Total number of Handicraft/Handloom establishments was 54437 (10.85%). These establishments provided employment to 100581 persons (9.18%). Out of the total establishments, 47821(87.85%) were without hired workers.
- Majority of establishments i.e. 96.47% were owned by proprietors. Further, 24.27% proprietary establishments were owned by females while 74.85% establishments were owned by males. Nearly 92.78% (48726) of proprietary establishments of handicrafts/handloom were owned by followers of Islam, 3.83% (2012) by Hindus, and 0.20% (103) by Christians. Out of these proprietary establishments, 12.92%(6787) were owned by OBCs, 1.97% (1036) by SCs and 1.53%(803) by STs.
- Among the districts, District Badgam (40.18%) has witnessed the highest number of handicraft/handloom establishments, followed by Srinagar district (17.24%), Baramulla (13.44%).
- Average employment per establishment for handicraft/handloom establishments was found to be 1.85.

Results At A Glance

Sixth Economic Census held in J&K during the year 2013 cover all the areas located within the geographical boundaries of the state. The data was scrutinized thoroughly in respect of all 22 districts of the state and all the agricultural and non-agricultural establishments other than crop production and plantation were assigned appropriate codes as per National Industrial Classification 2008. All the entrepreneurial units were grouped under the broad sectors of economy, namely, agriculture (other than crop production and plantation), non-agriculture (other than services), non-agriculture (services). In respect of J&K, non-agricultural activities occupy pivotal position as 96.69% of establishments come under this category whereas agricultural activities only have 3.31% of establishments.

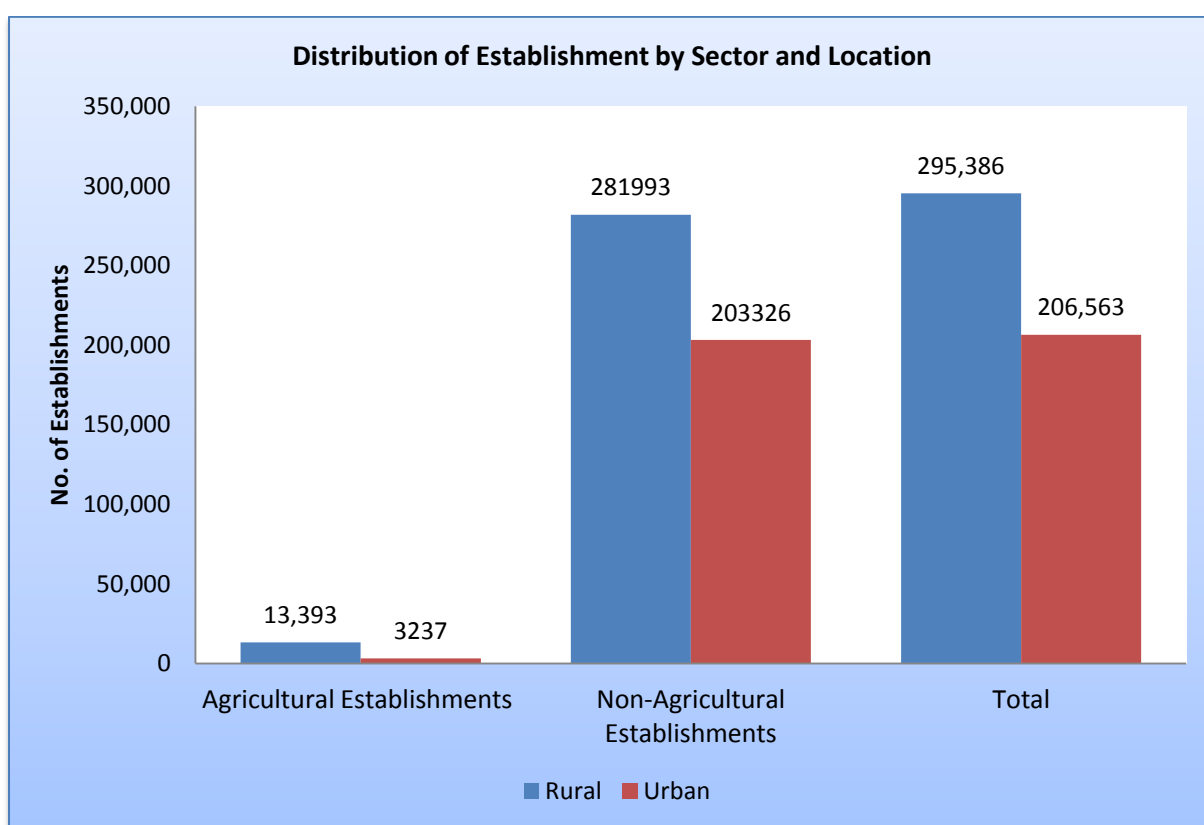

The data reveals that there was 54.50% growth in terms of number of establishments from 324908 in the Fifth Economic Census to 501949 in Sixth Economic Census. The main findings are discussed with the help of Statements, Graphs and wherever it is feasible, comparison with the earlier Economic Census data was also made in separate chapter to project the changes that had taken place during the last three Economic Censuses.

Establishments by Type, Location and Sector

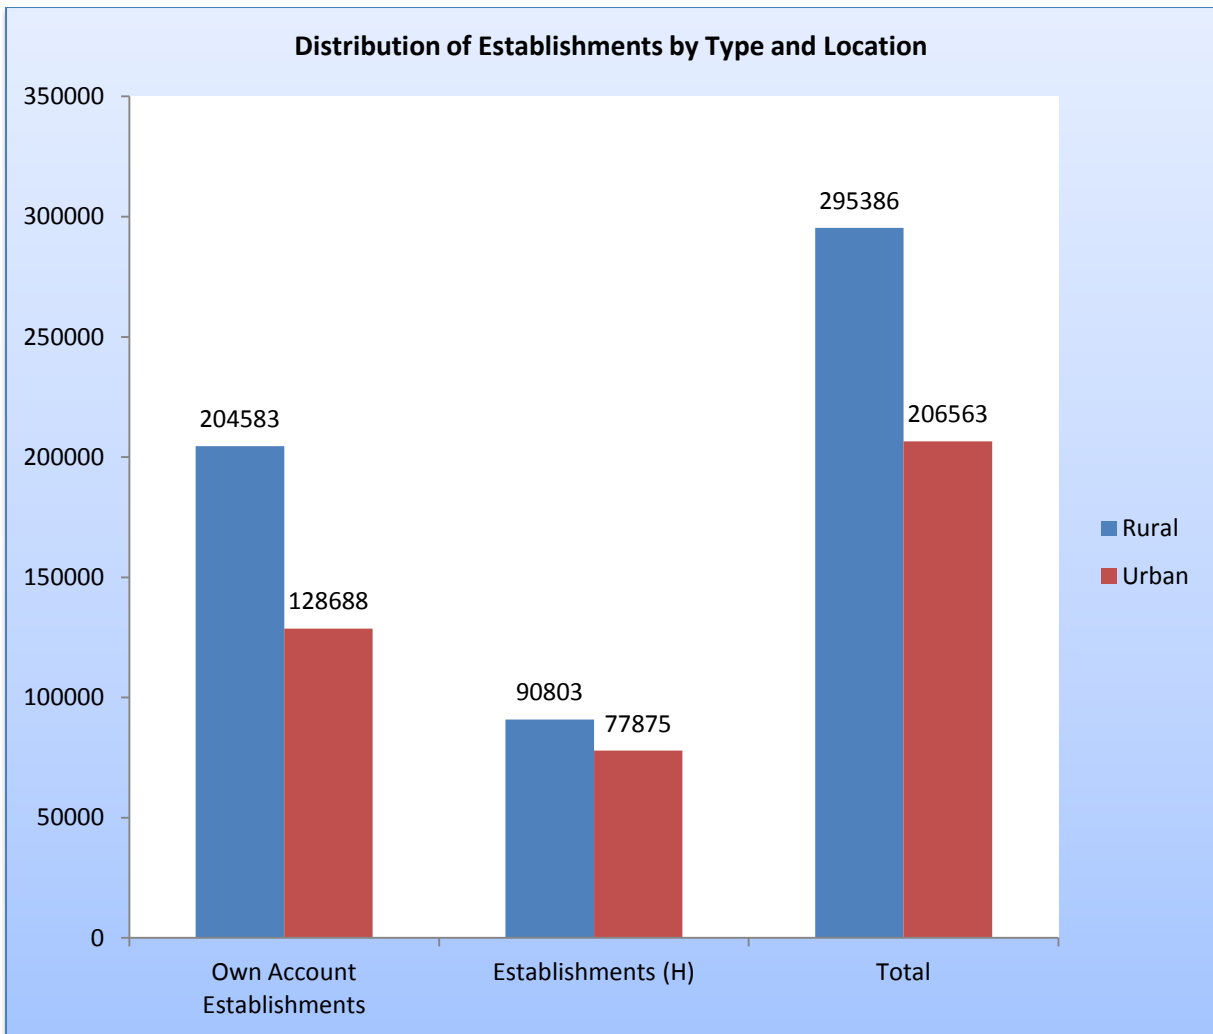

The total number of establishments found to be operating in the geographical boundaries of J&K during 2013 comes to 501949. Out of them only 295386 (58.85%) were in rural areas and 206563 (41.15%) in urban areas. Break-up of establishments in terms of agricultural and non-agricultural type revealed that 16630 (3.31%) belong to former category and 485319 (96.69%) to latter. In the rural areas out of total establishments, 13393 belong to agriculture and 281993 to non-agriculture. Similar classification in respect of urban areas reveals that there were 3237 agricultural and 203326 non-agricultural establishments.

Number of Establishments and Employment Therein

(b)	Persons Usually working				
	i)	Total	572807	488521	1061328
	ii)	Hired	342548	343751	686299
	iii)	Average Employment	2.03	2.40	2.19
III	Agricultural and Non-agricultural Establishments				
(a)	All Establishments		295386	206563	501949
	i)	Own Account Establishments	204583	128688	333271
	ii)	Establishments (H)	90803	77875	168678
(b)	Persons Usually working				
	i)	Total	599347	496162	1095509
	ii)	Hired	348400	347689	1095509
	iii)	Average Employment	2.03	2.40	2.18

Establishments can be classified into two broad categories on the basis of nature of employment viz. Own-account establishments (OAEs) operated without hired worker and establishments (H), run with at least one hired worker. Out of the total establishments, 333271 (66.40%) were OAEs and 168678 (33.60%) were establishments (H), run with at least one hired worker. There were 204583 own account establishments (OAE), and 90803 establishments (H), with at least one hired worker, in rural J&K whereas in urban they account for 128688 and 77875 number respectively.

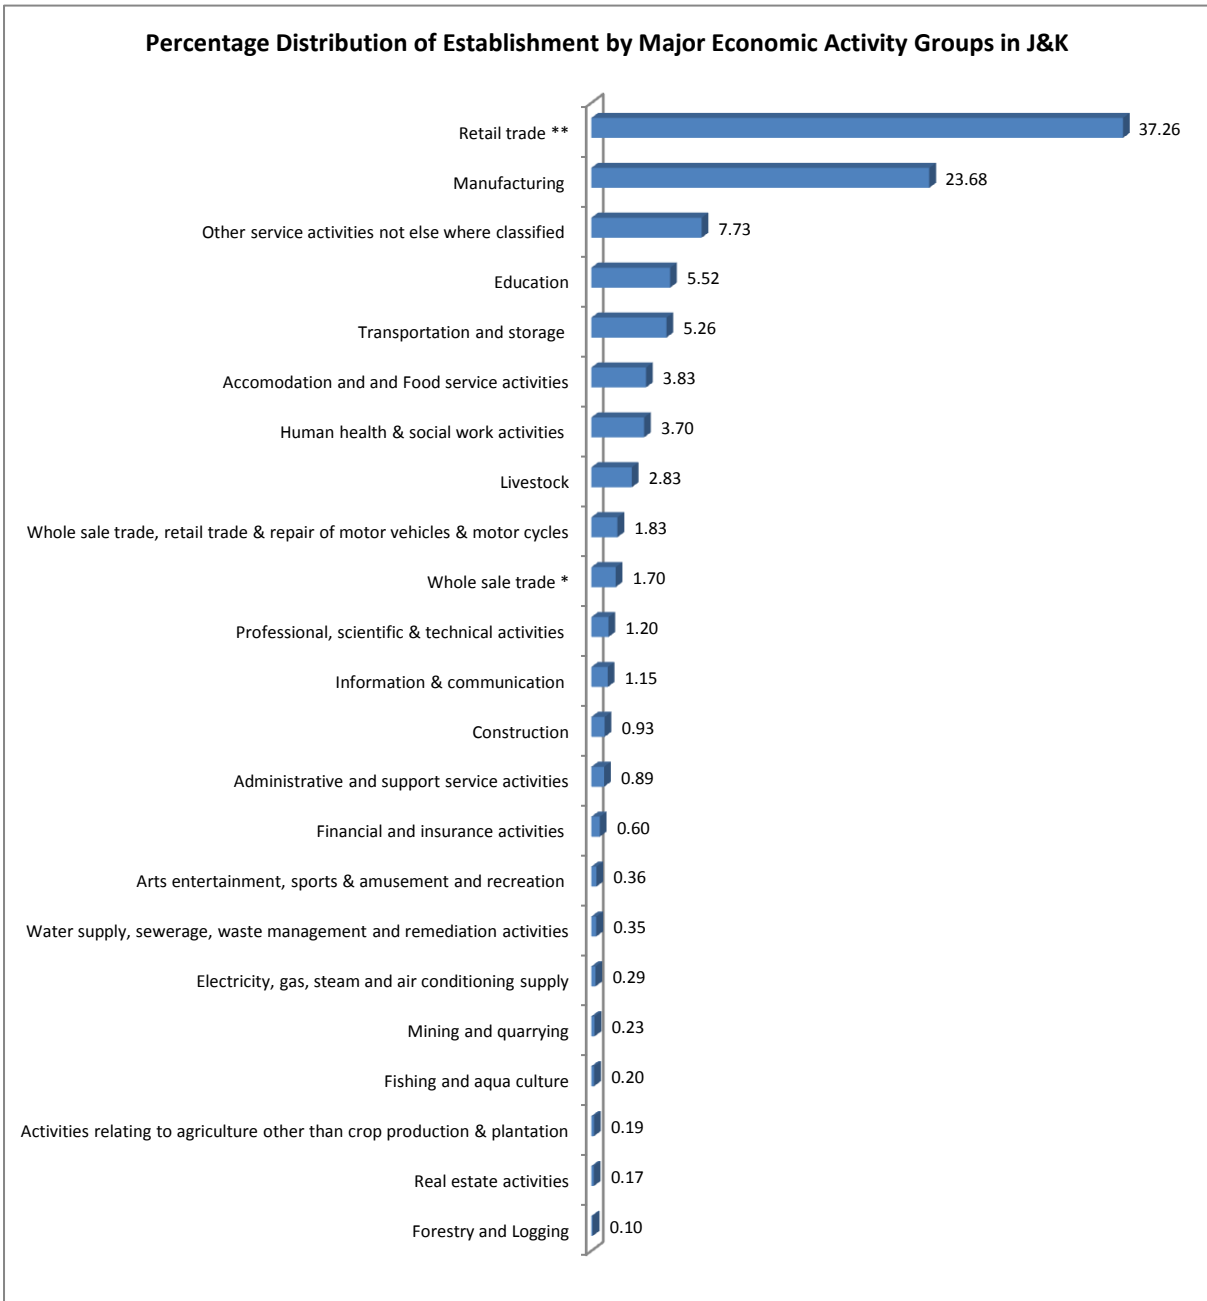

It is observed that the share of OAE's was 69.26 % in rural when compared to 62.30% in urban. Distribution of establishments by type and location is presented graphically above.

At the state level, economic activities in field of 'Trade' and 'Manufacturing', emerged as the main major economic activities with the largest number of establishments (60.95%). In rural J&K, 'Retail Trade' activity with 95740 (32.41%) establishments occupied the first place followed by 'Manufacturing' with 81071 (27.45%) establishments. As far as urban J&K is concerned, 'Retail Trade' accounts for 91307 (44.20%) stood first among the major economic activity groups. The major economic activity group 'Manufacturing' with 18.31% share stood as the second largest group of activity. It is worthwhile to mention that Live Stock (85.55%) emerged as major economic activity among Agricultural Activities and accounts 2.83% among all activities (Agricultural + Non-Agricultural).

Percentage distribution of establishments by major economic activity group is presented in Graph.

Establishment by Size of Employment

The statement below shows the distribution of establishments by major economic activity groups by their employment size class. The data reveals that 95.49% of establishments were of employment size class 1- 5, followed by 3.01% of size class 6–9, 1.43% of size class 10-99 and the rest 0.07% were of employment size class of 100 & above.

Out of 479318 establishments of employment size class 1-5, maximum share of 38.79% is attained by 'Retail Trade' activity followed by 'Manufacturing' 23.97%. 'Manufacturing' accounts for 44.28% (Maximum) of establishments having employment size class of 100 & above. 'Education' and 'Human Health & Social work activities', activities in size class 100 and above accounts for 12.65% each.

Sources of Financial Assistance of establishments

Chapter One

Introduction

Genesis

The Central Statistics Office (CSO) since it came into existence has from time to time, been taking a number of effective measures in creation and improvement of the database for various sectors of the economy and up-date it periodically to meet the requirements of the planners for sound, systematic and balanced planning both at the macro as well as at micro level. While data requirements may be enormous in various sectors, the judicious collection and maintenance of data for various sectors within the available resources is a challenge. The economy can broadly be classified into two sectors namely Agricultural and Non-Agricultural sectors. Since fairly reasonable database exists for Agricultural Sector whereas such data base for Non-agricultural Sector is not much. Keeping in view the importance of the non agricultural sector in the economy and the non-availability of basic frame for adoption in various sampling techniques for collection of data and estimation of various parameters, conduct of Economic Census was felt necessary. The economic census is an attempt of the CSO for preparing frame of establishments which could be used for various censuses as well as surveys for collection of detailed data particularly on non-agricultural sector of the economy.

Prior to 1976 there was not any Directory of Establishments in the un-organized sector of the economy which could have served as a sampling frame for carrying out further detailed surveys for collection of data required on various aspects of the entrepreneurial and industrial activities. Realizing the importance of un-organized sector of the economy which has the substantial contribution to the Gross Domestic Product (GDP), CSO launched a nationwide “Scheme of Economic Census and Surveys” in 1976 to cover the statistics in respect of non-agricultural segments of the economy. Since then the economic census has become a recurrent affair of the CSO and conducted six countrywide economic censuses in the years 1977, 1980,1990, 1998, 2005 and the present sixth economic census has been conducted during the year 2013. The economic census has assumed tremendous importance for providing entrepreneurial/industrial statistics in a fairly adequate manner. It is a large scale operation for collection and derivation of quantitative statistics about the number of establishments and their salient features including existing status of employment.

Economic Census

The first coordinated approach was made by Central Statistics Office (CSO), Govt. of India by launching a Plan Scheme “Economic Census and Surveys” in 1976. The scheme envisaged organizing countrywide census of all the economic activities (excluding those engaged in crop production and plantation) followed by detailed sample surveys of unorganized segments of different sectors of non-agricultural economy in a phased manner during the intervening period of two successive economic censuses.

The economic census collects data on distribution of establishments along with their salient features like location of the establishments, entrepreneurial activity being carried out by the establishment, nature of operation, type of ownership, number of persons usually working in the establishments with male-female and hired- not-hired divide, power/fuel used etc. The entrepreneurial data collected under the economic census is highly indispensable for formulation and updating the industrial policy both at the centre and at the state level. The data generated under the economic census apart from other uses forms the basis for estimation of macro level aggregates of various parameters of industrial economy and for improving the estimation of National Income and related aggregates from time to time. The follow-up surveys provide detailed sector specific information on inputs, outputs, investments etc.

Historical background of economic census:

First Economic Census 1977

The first Economic Census was conducted throughout the country during 1977 with a view to collect information on non-agricultural economy in collaboration with the Directorates of Economics and Statistics of all States/UTs excluding Lakshadweep. The coverage was restricted to non-agricultural establishments employing atleast one hired worker on a fairly regular basis. Data on items like description of activity, number of persons usually working, type of ownership etc was collected.

Second Economic Census, 1980

The Economic Census covers a large number of small and tiny units which are subject to high rate of mobility and variation in output and turnover, the five year interval was considered to be the minimum required period for an economic census. The second economic census was thus due to be conducted in the year 1982. However, the Second Economic Census was conducted in 1980 along with house listing operations of 1981 population census. This was done with a view to economize resources, manpower, time and money as the operations of economic census involve listing of establishments through household approach which is a very huge exercise. The scope and coverage of second economic census was, however, enlarged. All establishments engaged in economic activities both agricultural and non-agricultural whether employing any hired worker or not, were covered except those engaged in crop production and plantation. The second economic census was conducted in all states/UTs with sole exception of Assam. Comprehensive

information on location of establishments, description of economic activity, nature of operation, type of ownership, social group of owner, use of power/fuel, total number of workers usually working with its hired component and with male-female breakup was collected.

Third Economic Census 1990

The Third Economic Census was scheduled to be held in 1986 could not be carried out on quinquennial basis due to resource constraints. The Third Economic Census was however, synchronized with the house listing operations of population census 1991 for operational convenience and cost effectiveness on the same pattern as of economic census 1980. Coverage of information for the Third Economic Census was similar as that of Second Economic Census. This census was conducted in all states /UTs except J&K where population census 1991 was not held because of unfavourable conditions and disturbance that prevailed in the state.

Fourth Economic Census 1998

With view to meet the demand of various user departments for the data on un-organized sectors of the economy and considering the nature of large number of small units which are subject to high rate of mobility and mortality it was felt that economic census must be brought back to quinquennial nature so that an up-to-date frame can be made available once in five years for conducting the follow up surveys. Fourth Economic Census was planned during 1996. But due to various reasons Economic Census could be launched only in 1998. This census was thus conducted during 1998 with the interest to have a detailed enquiry assessing the impact of economic reforms and liberalization policies introduced in the National Economy. The Fourth Economic Census made a count of all economic activities together with some of their salient features like location of activity, type of activity/employment with male-female breakup. The census provided information about all agricultural (except crop production and plantation) and non-agricultural activities carried out in the state. The Fourth EC was conducted throughout the country.

Fifth Economic Census 2005

The Fifth Economic Census was conducted throughout the country in 2005. The need for repeating the exercise of economic census was felt in view of considerable progress achieved in the diverse socio-economic facets of the country. There was no change in the coverage of the fifth Economic Census as compared to the fourth economic census. Through this economic census a fairly complete count of all economic activities of agricultural and non-agricultural establishments was made. The agricultural activities did not, however, include crop production and plantation. Apart from salient features of establishments like location of activity, type of activity, employment position, power/fuel used, ownership and social group of ownership, there were certain new features in fifth economic census. In the Fifth Economic Census addresses of the establishments employing 10 or more workers were collected for the first time in the history of economic census. Another important and new

feature of Fifth Economic Census was processing of census data through Intelligent Character Recognition (ICR) Technology.

Sixth Economic Census

Economic Census is the complete count of all establishments/units located within the geographical boundaries of the country. All units (establishments) engaged in production and/or distribution of goods and services other than for the sole purpose of own consumption are counted.

The overall responsibility for organization and conduct of Sixth Economic Census like all other earlier censuses rested with CSO, Ministry of Statistics and Programme Implementation, Govt. of India. The Directorates of Economics & Statistics of the States/UTs were made responsible for conducting the field work and preparing the report concerning to their respective States/UTs. The Sixth Economic Census proposes to provide up-to-date information on the Activity-wise number of establishments and number of persons employed therein in all the sectors (excluding crop production, plantation, public administration, defence and compulsory social security) of the country including their distribution at all-India, State, district and at village/ward levels for comprehensive analysis of the structure of the economy (micro, macro and regional levels).

Objectives

- To provide economic data at lower geographical levels like tehsils/villages in case of rural areas and towns/wards in case of urban areas that meet the development needs for decentralized planning required under 73rd and 74th Constitutional Amendments.
- To provide economic data that meets the needs of the Private and Public sectors, planners, researchers and analysts.
- To provide a modern and comprehensive frame to be utilized in all specialized economic surveys based on sample techniques.
- To provide a broad database to be used in carrying out studies and surveys needed for economic development programmes.
- To compare the survey results with the previous economic series in the measurement of economic growth rates.
- To study the size of the employed by gender and by economic activity.
- To study the most important indicators of the national economy structure, the contribution of private sector in GDP and the structure of national accounts.
- To provide updated Directory of Establishments employing 8 or more workers for local level planning purposes and also for using as a “List frame” for conduct of survey of such establishments in the non manufacturing/services sector and

- To generate information on number of exporting establishments employing 8 or more workers, activity-wise and area wise in operation

Scope and coverage

The Sixth Economic Census has been conducted in all the States/UTs of India. In J&K, the Sixth Economic Census was carried out in all the 22 districts covering all areas located within the geographical boundaries of the state. All economic activities (agricultural as well as non-agricultural) except those involved in the crop production, plantation, public administration, defence and compulsory social security related to production and/or distribution of goods and/or services other than for the sole purpose of own consumption are covered. However, like earlier censuses, the following activities have been kept out of the ambit of the Sixth Economic Census:

- i. Establishments of shelter less and nomadic population, which keep on moving from place to place and camp either without shelter or with make shift-shelter.
- ii. Establishments engaged in some illegal activities, like smuggling, gambling, beggary, prostitution etc.
- iii. Domestic servants, whether they work in one household or in a number of households, drivers etc who undertake jobs for others on wages.
- iv. All wage-paid employees of casual nature.
- v. Household members engaged in household chores.
- vi. Persons doing different types of jobs depending on the availability of work e.g loading, unloading and helping a mason or a carpenter, doing earthwork for a contractor.
- vii. Household members working for other households and earning some money which is insignificant.
- viii. Households in which none of the members is engaged in any gainful activity i.e, households depending on remittance, rent, interest, pension etc.

Preparatory arrangements

The Government has constituted two committees for smooth and effective conduct of Sixth Economic Census at state and district levels.

The State Level Steering Committee under the Chairmanship of the Chief Secretary, (Ex-officio Chief Economic Census Commissioner) was constituted vide Govt. Order No:77-PD of 2011 dated 8-08-2011. Similarly District Level Steering –cum-Monitoring Committee under the Chairmanship of the respective District Development Commissioner was constituted vide Govt. Order No:78-PD of 2011 dated:8-08-2011.

The State Level Steering Committee meeting under the Chairmanship of the Chief Secretary, Jammu & Kashmir Govt. was convened on 17-11-2011 and approved the Activity Plan for the effective conduct of Sixth Economic Census in the State. Apart from this the

State level Steering Committee in the first meeting decided to get the field operations of the Sixth Economic Census done by Teachers of the Education Department in urban areas and by Village Level Workers (VLWs) of Rural Development Deptt. in the rural areas as was done in case of Fifth Economic Census.

New initiatives

In order to ensure complete coverage, it was necessary to locate and identify each and every house in Enumeration Block (EB), use of Abridged House list (AHL), layout Maps (LM) and Charge Registers was made. AHLs, layout Maps, and Charge Registers of population census 2011 procured from the Census Deptt. were distributed to all the field staff through District Statistics and Evaluation Officers of the respective districts. The layout Map (LM) provides the identification particulars i.e, names and codes of State / District / Tehsil / Taluk /Police Station /Development block /Circle /Mandal /Town /village / Ward and Enumeration Block. It also provides a map indicating the boundaries and landmarks of the EB, location of each house, purpose for which the census house is used such as residential and non-residential along with a district census house number.

For the first time in the Sixth Economic Census, Ministry of Statistics and Programme Implementation involved the collection of statistics Act, 2008 to empower the field staff and induce in them the sense of confidence while facing typically reluctant respondents. Thus field work of Sixth EC in all the States/UTs has been conducted under the Statistical Act 2008. However, in J&K field operations of Sixth EC have been undertaken under newly enacted Statistical Act 2010 of the state. Thus field work of Sixth Economic Census in all the states /UTs of India except J&K has been conducted under the Statistics Act, 2008. However, in J&K field operations of Sixth Economic Census have been undertaken under "The Jammu & Kashmir Collection of Statistics Act; 2010" . This Act provides legal backing in the whole exercise of data collection. Requisite notification regarding collection of data under the statistics Act 2010 was communicated to all the field functionaries for facilitating data collection process.

The information on Handicraft/Handloom establishments has been collected through the census for the first time in the history of economic census.

Changes made in the Sixth Economic Census

- i) The practice followed since the Second Economic Census to cover all agricultural activities (excluding crop production and plantation) was continued in Sixth Economic Census
- ii) In case of non-agricultural activities establishments engaged in public administration, defence and compulsory social security services were excluded during Sixth Economic Census as such information is already available with the Govt. and also due to the difficulties faced in collecting information for such establishments during fifth Economic Census.

Changes made in the schedules

In Sixth EC, two schedules were canvassed, viz., i) House and Establishment Listing Schedule (6A) (Annexure-I) and ii) Directory of Establishment Schedule (6C) (Annexure-III) in place of three schedules canvassed during Fifth EC. House and Establishment Listing Schedule of Sixth EC were formed by merging 'House List' and 'Enterprise Schedule' of the Fifth EC. Further, the 'Address Slip' Schedule of Fifth EC was modified and renamed as Directory of Establishment Schedule in Sixth EC for developing Business Register.

The third schedule 'Establishment Abstract' (Schedule 68) (Annexure-II) was a derived schedule of summary information based on the information contained in House and Establishment Listing Schedule, which was required to be prepared by each enumerator. This summary information was used to generate provisional results, which were released on 30/7/2014.

Inclusion of New Items/Changes made in Main Schedule i.e., House and Establishment Listing Schedule

- a. Number of members in the household(HH);
- b. Number of only wage earners/salaried employees in the HH;
- c. Number of establishments outside HH with fixed structure owned by HH members;
- d. Number of establishments outside HH without fixed structure owned by HH members;
- e. Number of establishments inside HH owned by HH members;
- f. (Items under 'a' to 'e' above were included at the household level to guard against possible under-listing of establishments located within the household or those without fixed structure)
 - a. Broad Activity Code (all activities divided into two-digit 24 broad activity codes);
 - b. Three-digit National Industrial Classification (NIC) – 2008 Codes recorded in place of four-digit NIC-2004 codes earlier, to minimize wrong reporting of NIC codes;
 - c. Collection of data for handicraft/handloom establishments for the first time;
 - d. Information on ownership of proprietary establishments collected for under Sex Code "Others" i.e. transgender for the first time;
 - e. Religion of the owner of proprietary establishments;
 - f. Nature of operation: 'Non-perennial' was divided into casual and seasonal; and
 - g. Use of Bar Codes along with Form Number for the first time to facilitate proper accounting of canvassed schedules.

Items Excluded from the Main Schedule i.e., House and Establishment Listing Schedule

- a. Information on subsidiary activity (only information on major activity collected);

- b. Power used in entrepreneurial activity (confined to Directory of Establishment Schedule);
- c. Registration code (confined to Directory of Establishment Schedule); and
- d. Number of children (male/female) usually working.

New Items Added in Directory of Establishment Schedule:

- a. Does a computer and /or internet facility exist in the establishment?
- b. Whether using power in production of goods and services?
- c. Whether an exporting unit?
- d. Address of main office along with that of branch office with PAN and TAN numbers; and
- e. Registration information under nine (09) codes.

Supportive Steps taken

In order to cover 125.4 lakh population as per census 2011 in the state 25494 Enumeration Blocks (EBs) were formed. Each EB consisting about 600 persons and all the 20,15,088 households of the state were covered, 18356 were rural EBs and 7138 were urban EBs.

As a norm, for 3 EBs one enumerator was appointed. So, 6119 enumerators were deployed for carrying out the field operations in the rural J&K and 2379 enumerators collected census information in urban J&K. Total number of enumerators deployed for census work was 8498.

Similarly 2833 supervisors @ one supervisor per 3 enumerators were deployed, of which 2040 supervisors performed in rural areas and 793 supervisors in urban areas of the state. 320 officers performed the duties of charge officers in this census.

Training

Training plays an important role for collecting reliable and accurate field data. National level (all India) training for Master Trainers was organized by the MoS &PI, Government of India. Subsequently two State level trainings for all District Statistics and Evaluation Officers/Assistant Directors/Statistical Officers dealing with the subject were conducted on 3rd-4th January, 2013 at Jammu for Jammu division based Master Trainers and on 7th-8th January, 2013 at Srinagar for Kashmir based Master Trainers. Senior officers of the Directorate of Economics & Statistics and Regional Joint Directorates also participated in the State Level trainings. District Level training Programmes were subsequently organized for providing training to the field functionaries like charge officers, supervisors and enumerators.

Block level training programmes were also organized before launching the field operations in the district.

It is important to note that CSO, MoS & PI, GoI facilitated imparting training to enumerators and supervisors by developing a 40 Minutes Documentary through Directorate of Audio and Visual Publicity (DAVP) in Hindi language and thereafter dubbed it in 13 regional languages and also in English, with a message of Hon'ble Minister (IC), MoS & PI. The Directorate of Economics & Statistics (J&K) distributed the CDs of the Documentary at district level. This was found very useful in communicating uniform instructions to the field staff.

Publicity measures

For receiving full public cooperation vide publicity measures were taken-up for conduct of this National Programme in local dailies of the state in English/Urdu languages and through electronic media (Radio/Doordarshan) for 30 days with TV Scrolls/day, prior to the commencement of field work.

Wide publicity was made on conduct of Sixth Economic Census through public appeal from Hon'ble Chief Minister, J&K, Minister of State for Planning, Chief Secretary, J&K & Principal Secretary to Govt, Planning & Dev Deptt etc. through Print media requesting the public and establishments to co-operate with the field staff visiting them for canvassing of Sixth Economic Census schedules.

The schedules and the census kit provided by the CSO, MoS & PI, GoI were provided to all the field staff alongwith the Instruction Manual.

Field Operations

Meeting of Standing Committee on Sixth Economic Census held on 1-06-2012, decided to complete Sixth EC work during October, 2012-June 2013. Accordingly, field operations relating to Sixth EC were conducted in two phases in J&K. Non-snow-bound areas were covered in the first phase and the work there started from ending January 2013 and was completed within two-three months. The snow bound areas were covered in the months of May-June, 2013. Thus, the field work in the entire state was completed during January – June, 2013. However, in the entire country field work related to Sixth Economic Census was conducted during January 2013- April 2014. For listing purpose, all houses/households/establishments were visited. Establishments with fixed structures were listed at the place of their operation. Contrarily establishments carrying out economic activities without any fixed structure were covered/listed at the place of the residence of the owner.

All types of establishments (perennial, seasonal and casual) existing on the date of census, although may not be in operation on the day due to certain reasons, were covered in the census. The data was collected from all the entrepreneurs and usual households. The work of the enumerators was supervised by high level officers. For collection of information on number of workers employed, information as on last working day was collected during visit by the enumerator. For information on major source of finance the outstanding loan against the agency on the day of visit was considered.

Schedules canvassed

Following three schedules were canvassed in Sixth Economic Census

- i) House and Establishment listing Schedule namely Schedule 6A. This main schedule is meant for listing of all establishments and households available in the EBs of census 2011 covering both rural and urban areas.
- ii) Establishment Abstract 6B. This schedule was completed from the entries carried in House and Establishment listing Schedule. Schedule 6B provided information regarding total number of different types of establishments working in the EB including units./establishments associated with the household. This schedule also provided information regarding number of workers in the establishment with male-female and hired-not hired breakup alongwith total number of establishments having 8 or more workers.
- iii) Directory of Establishment, Schedule 6C. Schedule 6C provided information relating to establishments with 8 or more workers (hired and not-hired workers taken together) i.e, the name of establishment its address, description of major activity, source of registration and other details for preparing Directory of Establishments.

The Sixth Economic Census Schedules were designed and printed as per the requirement of ICR Technology and in consultation with the Office of Registrar General of India. Schedule formats of Sixth EC are given at annexure- B.

Post Enumeration Check

Post Enumeration Check (PEC) of Sixth Economic Census was conducted by the officers of Directorate of Economics & Statistics/Regional Directorates in all districts of the state immediately after completion of the fieldwork. Two villages and two urban blocks were selected at random in each district of the state for this purpose.

Post field work activities

Scrutiny and coding of the filled-in census schedules 6A, 6B and 6C have been completed at district level. The District Statistics and Evaluation Officers furnished the District Level Quick Manual Tabulation Reports to DES. For quick census results the CSO has devised format I and II. While format I contained a set of 9 tables depicting state level figures, format II was meant for district level results. i.e, number of establishments with their salient features, employment therein with male-female and hired-not hired break-up.

Classification of Activities

On the directions of CSO economic activities are assigned 3-digit codes as per National Industrial classification (NIC) 2008. The District Statistics and Evaluation Officers have been made responsible to ensure proper reporting of NIC codes at district level by training their concerned staff.

Limitations of Sixth Economic Census

Collection of information is not generally record-based but based on oral information. The factors like recall lapse and casual approach on the part of informants may lead to some non-sampling errors.

It was planned to complete the fieldwork of Sixth Economic Census in each State/UT during a period of two months and the field work of entire Economic Census during a period of six months. But due to stretching of field work of Socio-Economic and Caste Census (SECC) from June 2011 to December 2012, the field work of Sixth EC could not be started before January 2013. The entire field work in J&K has been completed during January-June 2013. Further, because of certain genuine administrative difficulties in some States/UTs the field work for the entire country has not been completed within the stipulated period of six months.

Although certain improvements were made in the schedule to guard against under listing of establishments (particularly the home based units or those operating without fixed structures) data as per Sixth Economic Census may be subject to some amount of coverage error on account of such under listing, which is difficult to eliminate totally in a massive census operation like this.

(This page is intentionally left blank)

Chapter Two

Concepts and Definitions

Concepts and definitions of the important terms used in Sixth Economic Census are detailed below:

Establishment

An establishment is a unit or an economic entity situated in a single location in which predominantly one kind of economic activity is carried out such that at least a part of the goods and /or services produced by the unit goes for sale(i.e. entire produce is not for sale consumption). The activity may be carried out within fixed premises/permanent structure or without having any permanent structure.

Agricultural Establishment

An agricultural establishment for the purpose of this Census is one engaged in production of agriculture good (other than crop production & plantation by the farmers or a group of farmers or any agency), agricultural services, hunting, trapping & game propagation, livestock production, forestry and logging as well as fishing and aquaculture, where at least some part of the production or services is sold out. Establishments engaged in activities pertaining to crop production and plantation though in the agriculture sector were not covered. Thus primarily cultivators themselves were outside the purview of Economic Census. However, services incidental to crop production or plantation provided/ undertaken by any one individual or a firm or a company by charging fee or rent /compensation e.g. machinery & equipment for tilling/cultivation, preparation of field or sowing harvesting/chaffing, etc. as their principal activity were included and the establishments engaged in such activities were enumerated growing of tea, coffee, rubber, tobacco, etc. were not classified as agricultural establishments for the purpose of this census, however, establishments engaged in processing of tea, coffee, tobacco etc. were covered.

Agricultural Broad Activates

- 1) Agriculture Activities (Except Crop production & Plantation)
- 2) Live Stock
- 3) Forestry and Logging
- 4) Fishing & Aqua Culture

Non-Agricultural Establishment

Establishments engaged in activities other than agricultural activities (like crop production, growing of tea, coffee, rubber etc.) as defined above are termed as non-agricultural establishment.

Non-Agricultural Broad Activities

- 1) Mining and Quarrying
- 2) Manufacturing
- 3) Electricity, Gas, Steam & Air conditioning
- 4) Water Supply and Sewerage and Waste Management
- 5) Constructions
- 6) Sale, Maintenance and repair of Motor vehicles and Motor cycles
- 7) Wholesale Trade
- 8) Retail Trade
- 9) Transport and Storage
- 10) Accommodation and Food service activities
- 11) Information & Communication
- 12) Financial & Insurance Activities
- 13) Real Estate Activities
- 14) Professional, Scientific & Technical Activities
- 15) Administrative and Support Service Activities
- 16) Education
- 17) Human Health and Social Work Activities
- 18) Arts entertainment, Sports & Amusement and Recreation
- 19) Other Activities

Following types of establishments were kept out of census coverage:

- ❖ Agriculture: Establishments growing perennial and non-perennial crops including plantation crops
- ❖ Government offices: Establishments engaged in public administration covering all Ministries, Departments at Central and State/ UT Govt. level and also local Govt. This includes Courts, Tax Office, Offices of Ministry of Defence (Air Force, Navy and Army), Police, ESIC, EPFO etc.

(However, government schools/institutions, colleges, hospitals, hostels/ flats, guest

houses, government banks, all public sector undertakings including that of Ministry of Defence other than defence equipment production or sensitive material corporations, undertakings etc. were covered.)

- ❖ Establishments involved in Gambling and betting activities declared illegal by the Government
- ❖ International organizations such as United Nations and its agencies, Foreign Embassies/Consulates etc.

Household

A household is a group of persons usually living together and taking their meals from a common kitchen. It includes temporary stay-away (those whose total period of absence from household is expected to be less than six months) but excludes temporary visitors and guests (with expected total stay of less than 6 months). There may be a household of persons related by blood or a household of unrelated persons or having a mix of both but satisfying above condition of a household. Example of households having unrelated persons/members are boarding houses, messes, hostels, recue houses, jails, ashrams, etc. These are called 'Institutional Households'.

Census House

A census house is a building or a part of building having a separate main entrance from the road or common courtyard or staircase, etc., used, or recognized as a separate unit. It may be occupied or vacant. It may be used for residential, commercial or for both purposes.

Premises

Premise is census house or part of a Census house occupied by a unit/household. If the activity of the enterprise carried out by a unit /household extends beyond the boundaries of a single house to a group of contiguous houses and in rare cases a group of houses in close proximity, the entire group of houses is regarded as single premise.

Worker

All persons (including children under 15 years of age) working on the last working day prior to the date of field work in the establishment, either as owners, members of the household working, co-owner or partner or helping the owner in running the establishment including other persons engaged by the establishment, whether hired or not, besides regular and salaried employees, casual/ daily wage labourers are considered as workers for that establishment.

Concepts Of Various Types Of Ownership

Government/Public Sector Undertaking

Establishments which are wholly owned/run/managed by Central or State

governments, quasi-government institutions, local government bodies like Zila/Gram Panchayat, Zila Parishad, City Corporation, Municipal authorities, autonomous bodies like Central/State/deemed to be Universities, Education boards, and government owned institutions like schools, libraries etc. set up by the government, with 100% funding are usually called Government establishments. Those run with more than 50% share of the government and remaining share coming from other sources will be treated as government/ public sector undertaking.

All establishments which are not treated as Government/ Public sector establishments will be treated as Private Establishments and classified into one of the following:

Proprietary Establishment

When an individual is the sole owner of an establishment it is a proprietary establishment.

Partnership Establishment

Partnership is defined as a 'relationship between two or more persons who have agreed to share the profits of a business carried out by all or any one of them acting for all'. There may be two or more owners in a firm, belonging to the same or different household, on a partnership basis, with or without formal registration. All partnership establishments registered under partnership Act, 1932 were also covered in the Economic census.

Private Corporate Establishments (Companies)

Those Private Establishments (companies) registered under the companies Act 1956 and carrying out economic activities fall under the category of 'Private corporate Establishments'. It includes private limited and public limited companies, as well as establishments registered under Limited liability partnership ACT, 2008.

Non-Profit Institution

Non-Profit Institution are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income/profit or other financial gain for the units that establish, control or finance them.

Co-Operative Societies

A co-operative society is one that is formed through the co-operation of a number of persons, recognized as members of the society, to benefit themselves. In the process, the funds are raised by members' contribution /investments and the profits generated out of the society's activities are shared by the members. Such societies are usually registered under Co-operative Societies Act 1912.

Self-Help Groups (SHG)

A self-help group (SHG) is a financial intermediary usually composed of 10-20 local persons. Members make small regular savings/ contributions over a few months until there is enough capital in the group to begin lending. Funds are then lent back to the members or to others in the village for any purpose. Many SHGs are 'linked' to banks for the delivery of microcredit. SHG need not be registered.

Nature Of Operation

If the entrepreneurial activity is carried on or likely to be carried on (for newly started establishments) throughout the year more or less regularly, it is treated as perennial activity.

If the activity of the establishment is confined to a particular season i.e. fixed months of a year, the same is called the seasonal activity. The economic activity of the establishment which is neither perennial nor seasonal is termed as casual. In case of casual entrepreneurial activity, it is carried out occasionally depending upon the availability of time and resources.

Number Of Persons Employed On The Last Working Day In Relation To Day Of Visit

The number of persons found working comprising, hired, non-hired (including family members; unpaid apprentice and owner himself), on the last working day in the establishment with gender break up: male and female, and the total had been recorded. Eunuchs & Hermaphrodite workers are added under male. Regular wage/salaried workers, who are temporarily absent on the last working day were also counted. In case of working owners/other family workers (i.e. Self-employed persons), those 'normally' work in the establishment but could not work on the last working day, were also included.

Chapter Three

Agricultural Sector

Entrepreneurial activities in the primary sector of the economy were also covered under the Sixth Economic Census though the main thrust was on non-agricultural economic activities. The coverage however, is limited to all those agricultural activities minus crop production and plantation. Accordingly, 'Agricultural Establishments' referred to in this chapter may be taken to mean those engaged in Live Stock, Agricultural services, forestry & logging and fishing & aquaculture. Agricultural establishments account for only 3.31% of total establishments and no. of persons employed is 3.12% of the total employment in J&K. Among the agricultural activities covered under the Sixth Economic Census the sub sector 'Livestock' emerged as the main activity.

The principal features of agricultural establishments were explained in terms of no. of establishments, employment, type of ownership and other principal characteristics to give an idea about this activity both in rural and urban areas of J&K.

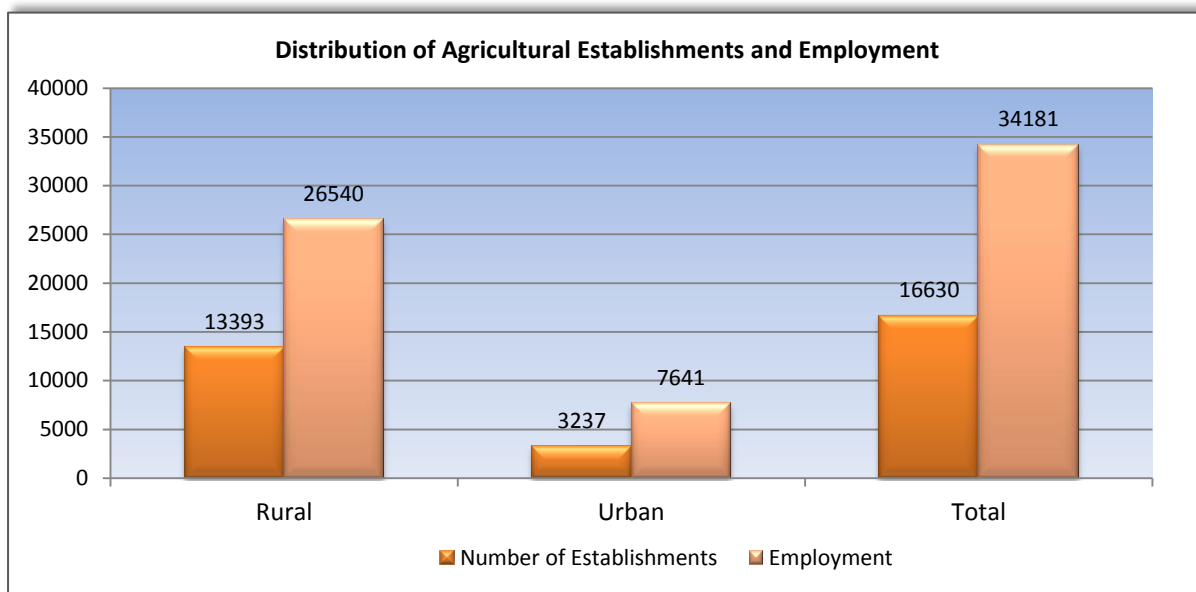

Number of Agricultural Establishments

The total number of agricultural establishments as per the Sixth Economic Census comes to 16630. Out of them, 13393 (80.54%) were located in rural areas and rest of the 3237 (19.46%) in urban areas. Further distribution of these establishments in terms of own account establishments and establishments with at least one hired worker reveals that 14018 (84.29%) belong to the establishment without hired worker and 2612 (15.71%) to the establishment with atleast one hired worker. Statement 3.1 gives the details of agricultural establishments by type, location and employment thereof.

Statement 3.1: Number of Agricultural Establishments and employment by location and type of Establishment				
S.No	Type of Establishment	Number of Establishments		
		Rural	Urban	Total
A	Own Account Establishment			
i	Number	11479	2539	14018
ii	Employment	20688	3703	24391
iii	Average Employment	1.80	1.46	1.74
B	Establishment with atleast one hired worker			
i	Number	1914	698	2612
ii	Employment	5852	3938	9790
iii	Average Employment	3.06	5.64	3.75
C	All Establishments			
i	Number	13393	3237	16630
ii	Employment	26540	7641	34181
iii	Average Employment	1.98	2.36	2.06

In rural, out of the total 13393 agricultural establishments, 11479 (85.71%) were own-account type and 1914 (14.29%) establishments with atleast one hired worker. In urban, on the other hand, 2539 (78.44%) were in the category of own account establishments and 698 (21.56%) were establishments with atleast one hired worker . Graph given below exhibits these details location-wise.

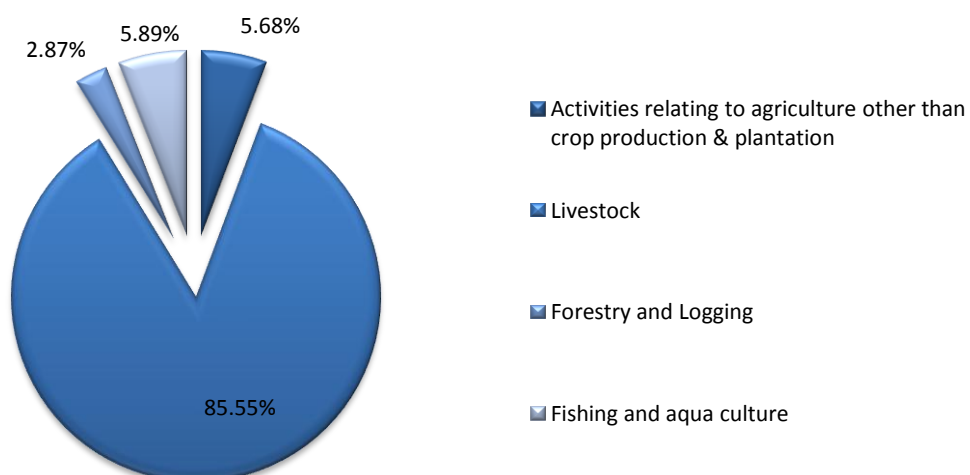

Total number of 34181 persons were engaged in the agricultural establishments in which 26540 (77.65%) were engaged in rural areas and 7641 (22.35%) in urban counter part of J&K. Average employment per enterprise comes out as 2.06.

Statement 3.2: Number of Agricultural establishments by Broad activity/ type of establishment						
Broad activity	Without Hired Worker		With atleast one Hired Worker		Total	
	Number	%	Number	%	Number	%
Activities relating to agriculture other than crop production & plantation	619	4.42	326	12.48	945	5.68
Livestock	12333	87.98	1894	72.51	14227	85.55
Forestry and Logging	182	1.3	296	11.33	478	2.87
Fishing and aqua culture	884	6.31	96	3.68	980	5.89
Total Agricultural Activities	14018	100	2612	100	16630	100

The above Statement reflects the distribution of total number of establishments engaged in Agriculture activities. The agriculture activities having share in the total number of establishments was 3.31%. Out of the total agriculture activities of 16630, Livestock contributes 14227 (85.55%), Activities relating to agriculture other than crop production & plantation 945 (5.68%), Forestry & Logging 478 (2.87%) and Fishing & Aquaculture 980 (5.89%). This is presented in Graph.

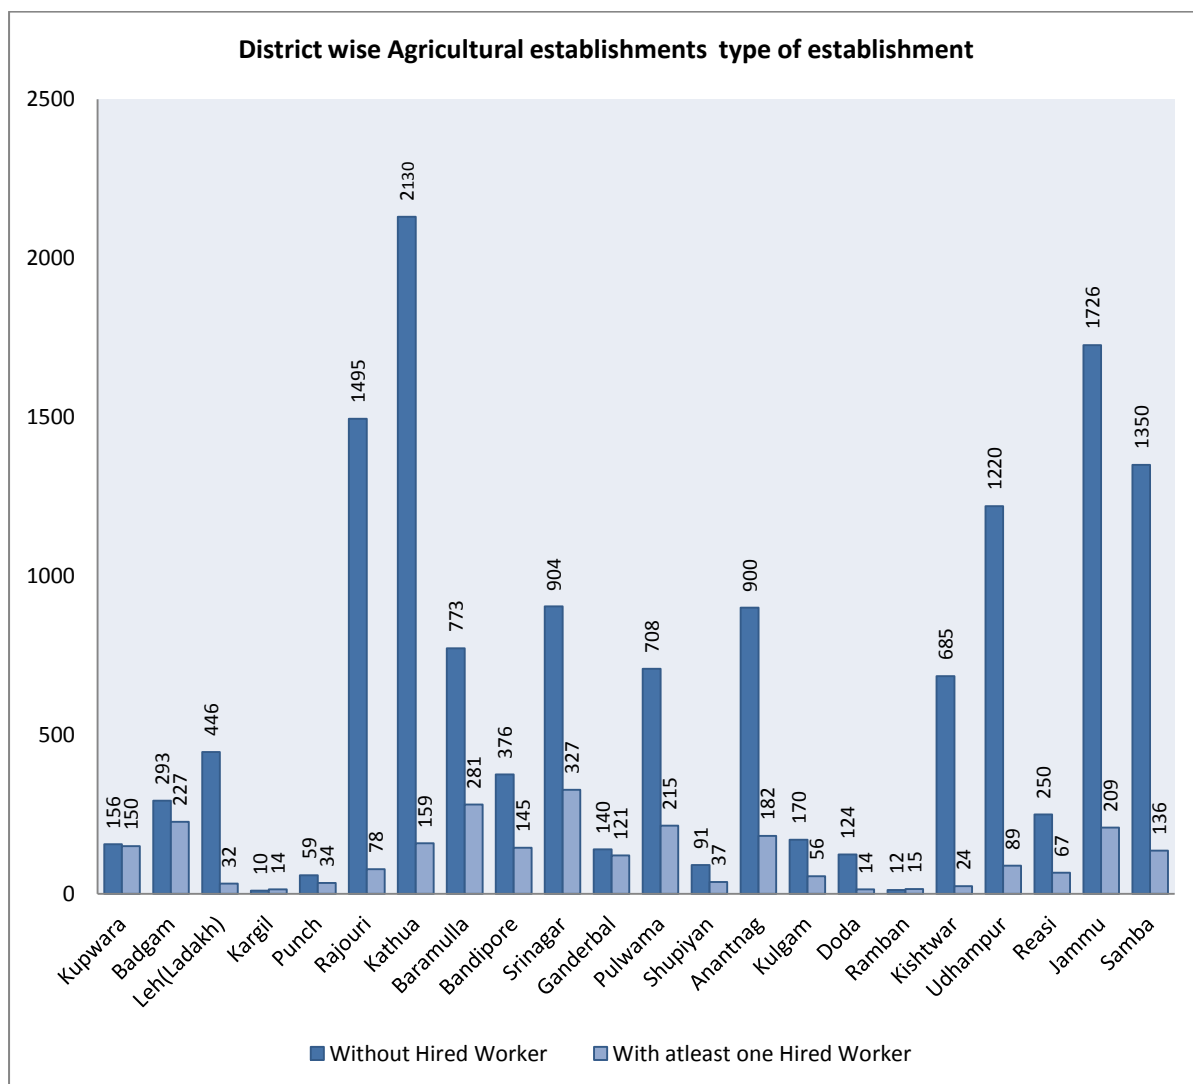

Distribution Of Agricultural Establishments By Major Activities

Statement 3.3: District wise Agricultural establishments by sector and type of establishment

District	Rural			Urban			Combined		
	Without Hired Worker	With at least one Hired Worker	Total	Without Hired Worker	With at least one Hired Worker	Total	Without Hired Worker	With at least one Hired Worker	Total

Total	11479	1914	13393	2539	698	3237	14018	2612	16630

Statement 3.3 clearly depicts that under agriculture activities 84.29% establishments were managed by the owner himself or with the help of person from his family(with out hired) and only 15.71% establishments were engaged at least one hired worker. Under the agriculture activities, highest number of establishments were concentrated in Kathua (13.76%) followed by Jammu district (11.64%). Under the Own Account establishments highest number of establishments was concentrated in district Kathua followed by Jammu. In the category of establishments (with one hired) a maximum number of establishments were concentrated in Srinagar district followed by Baramulla.

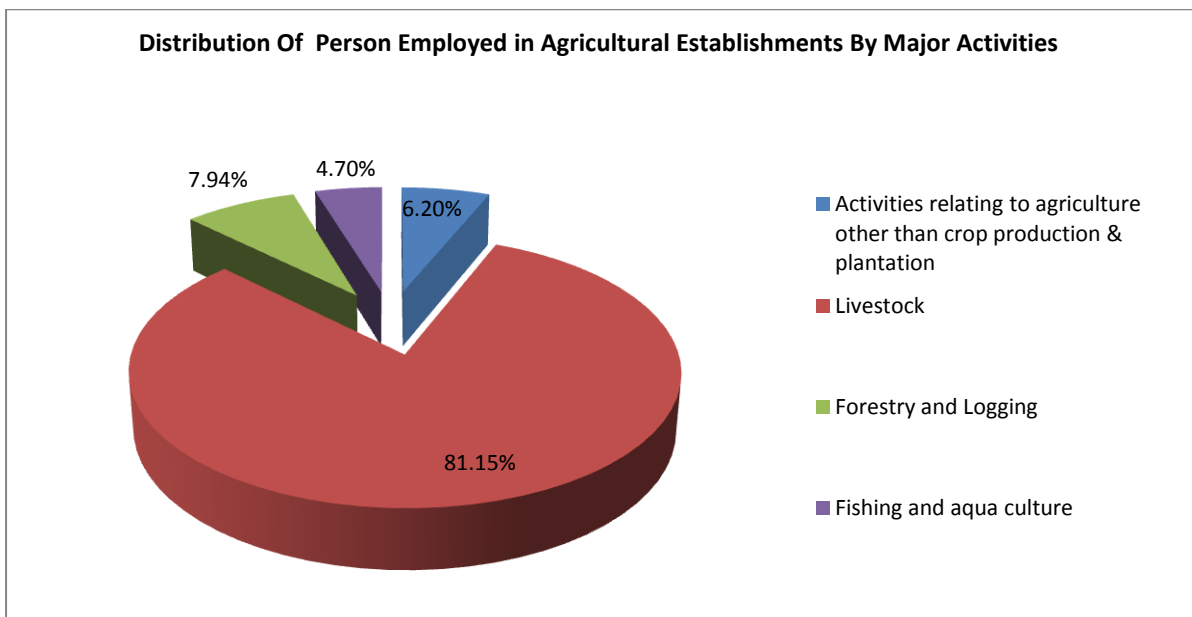

Employment In Agricultural Establishments

Statement 3.4 shows that the total number of persons usually working in the agricultural establishments was 34181. Out of them, 24391 (71.36%) were in Own Account Establishments and 9790 (28.64%) in Establishments with at least one hired worker. The average number of persons employed in each of the agricultural establishments comes to 2.06 persons. A maximum of 27738 (81.15%) persons were engaged in Livestock rearing.

Statement 3.4: Number of persons employed in Agricultural establishments by type of establishment /activities

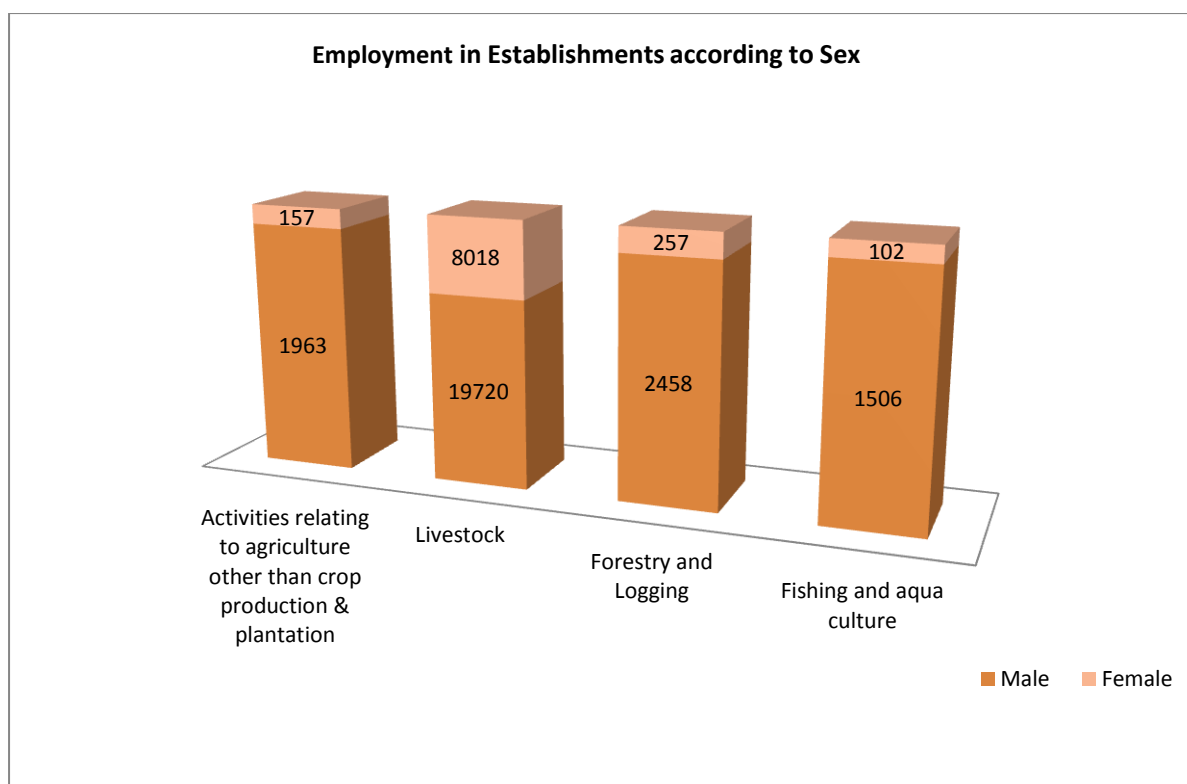

Broad activity	Without Hired Worker		With at least one Hired Worker		Total	
	Number	%	Number	%	Number	%
Activities relating to agriculture other than crop production & plantation	696	2.85	1424	14.55	2120	6.20

Coming to the corresponding employment in each size class, it is found that 98.79% of the employees of agricultural establishments were absorbed by establishments employing persons in the range 1-5. This was followed by establishments employing 6-9 persons with 1.20% share, and only 0.01% establishments employing 10 or more persons.

Nature of Operation

Establishments according to nature of operation fall under three categories viz. Perennial, seasonal and casual. In case of agricultural establishments of J&K, it was found that 14338 (86.22%) out of the total of 16630 establishments were perennial in nature. Only 2128 agricultural establishments were registered as seasonal and 164 as casual. In case of agricultural establishments in J&K, total number of persons employed in perennial sector is 30440 (89.06%) out of the 34181 persons.

District Kathua has highest number of establishment (2177) followed by Jammu District(1741) in perinial sector. Same trend is followed in employment sector.

Statement 3.9: District wise distribution of total number of Establishments and total number of persons employed under Agriculture activities by Sector and Nature of operation

Social Group of Owner

Social group of owner of establishments in terms of SC, ST, OBC and Others is relevant for privately managed establishments only. Distribution of establishments for social group OBC was introduced for the first time under Fourth Economic Census.

Detail of distribution of establishments in terms of social group of owners is depicted in Statement 3.10. The Statement reveals that a maximum number of proprietary establishments were owned by the persons belonging to the category termed as 'Others' with 48.87%. Beside this 38.78% were belong to ST, 7.84% to SC and remaining 4.50% held by the owners belonging to OBC category.

On the other hand, 45.54% of workers were employed in the proprietary establishments held by the persons under social group 'ST' followed by 42.88% under others, 7.75% under SC and remaining 3.82% under OBC owners.

Statement 3.10: Distribution of proprietary establishments by social group of the owner

Chapter Four

Non–Agricultural Sector: Other than Services

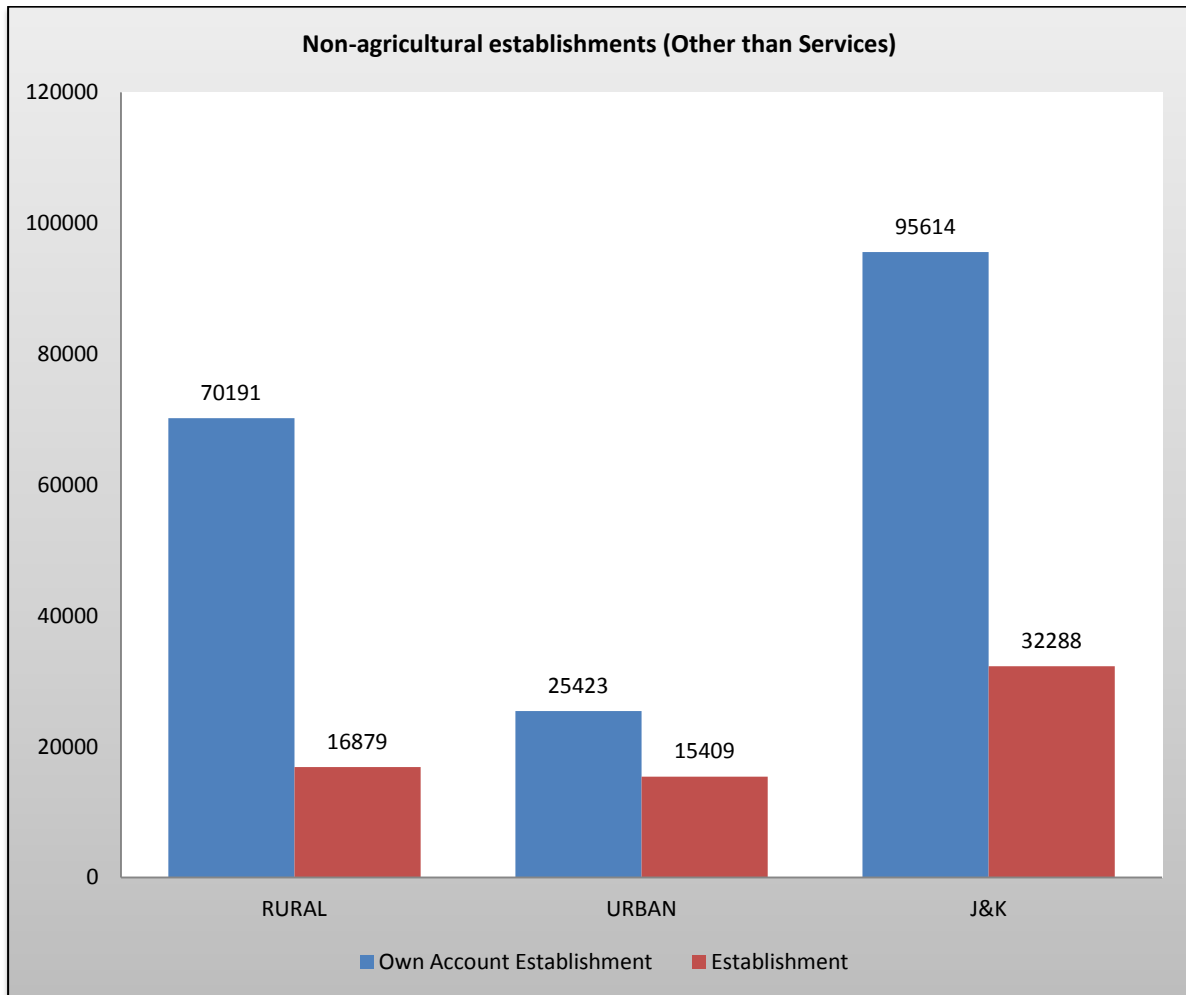

Sixth Economic Census covered all types of non-agricultural economic activities whether they are registered or un-registered, private or otherwise, seasonal or perennial, fixed or moving type, employing hired labour or managing with household members, all and sundry thereby making this a colossal operation. Since the very essence of economic census is the measurement of non-agricultural activities in terms of its physical properties, a detailed analysis of each field of activity is made in this section. Before that, a brief review of the size, scope and important features of the non-agricultural economic activities is made. The non-agricultural sector has been further sub-divided into two main categories viz. Non agricultural sector (service activities) and non-agricultural sector (other than services). Non- agriculture sector (other than service activities) consists mining & quarrying, manufacturing, electricity, gas, steam, water supply, sewerage, waste management and construction activities.

Number of Non-Agricultural Establishments Other Than Services

Sixth Economic Census has brought to light that, but for the meager 3.31 percent of agricultural activities, all other establishment are non-agricultural in nature. Out of the total 485319 non-agricultural establishments, 26.35% were 'non-agricultural other than services'. Also, out of 1061328 numbers of persons employed by non-agricultural establishments, 29.15% employed in 'non-agricultural other than services' as presented in Statement.

Statement 4.1: Non-agricultural establishments (Other than Services) and employment therein				
S.No	Type Of Establishments	Number Of Establishments		
		Rural	Urban	Total
A.	Own Account Establishment			
i	Number	70191	25423	95614
ii	Employment	98413	32814	131227
iii	Average Employment	1.40	1.29	1.37
B.	Establishment with atleast one hired worker			
i	Number	16879	15409	32288
ii	Employment	98560	79607	178167

C.	All Establishments			
i	Number	87070	40832	127902
ii	Employment	196973	112421	309394
iii	Average Employment	2.26	2.75	2.42

Break up of non-agricultural establishments (other than services) on the basis of their location viz. Rural & Urban reveals that only 87070 (68.08%) were in rural and 40832 (31.92%) in Urban areas of J&K. Non-agricultural establishments (other than services) can be further divided on the basis of their type into Own-Account Establishments (OAEs) and Establishments with atleast one hired worker. There were 95614 (74.76%) OAEs and 32288 (25.24%) establishments with atleast one hired worker.

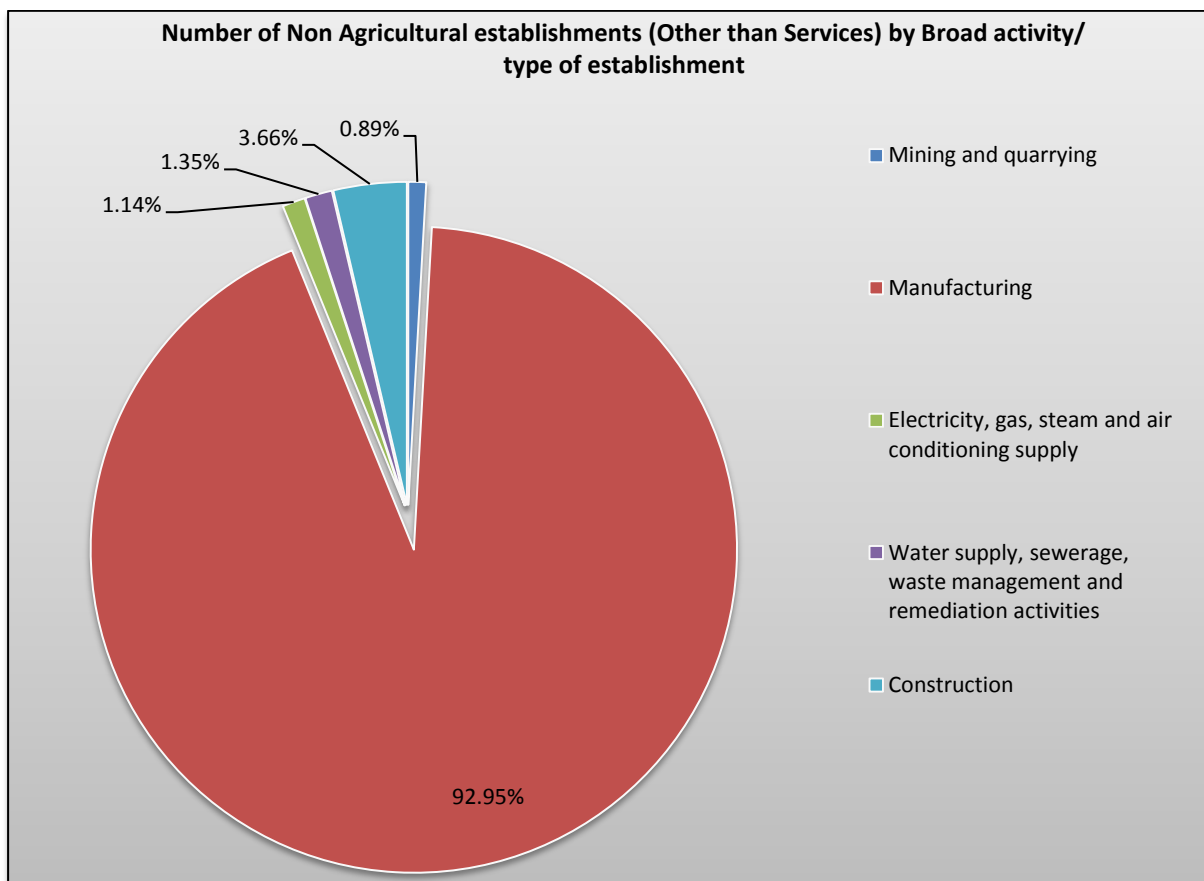

Statement 4.2 exhibits the total number of Non Agriculture establishments (other than services) by broad activity and type. When analysing the individual type of activity under Own Account establishments, 95.22% establishments were involved in the manufacturing and 3.58% in the Construction activity. As far as the establishments with hired worker were concerned, the trend has been observed with 86.24% units in manufacturing, 4.75% in water supply, sewerage, waste management and remediation activities and 3.91% in construction activity.

As a whole, 92.95% establishments were engaged in manufacturing, 3.66% in construction and 3.38% pertaining to remaining activities.

Statement 4.2: Number of Non Agricultural establishments (Other than Services) by Broad activity/ type of establishment

Chapter Six

Handloom / Handicraft Establishments

This is first time in the history of the Economic Census it was decided to capture the information on Handicraft & Handloom establishments. Handicraft and Handloom enterprises are those where predominant role of human skills, performed by hands using traditional knowledge and simple tools.

Some examples of handicraft/handlooms works found in J&K are tweed pashmina shawls, raffal, silk sarees, carved walnut woodwork, chain stitching, papier machie, crewel, phool kari etc.

Distribution of Handicraft/Handloom Establishments

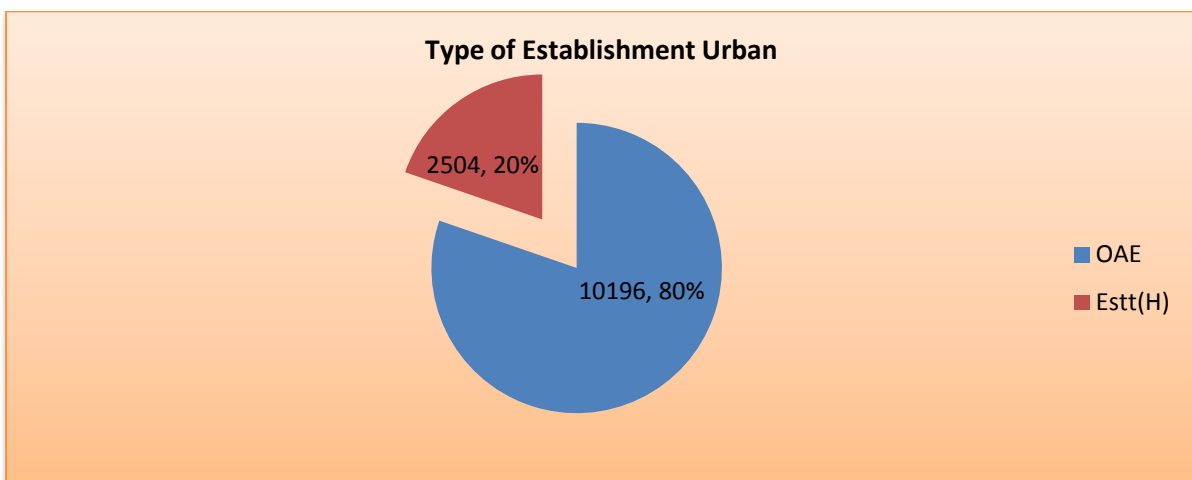

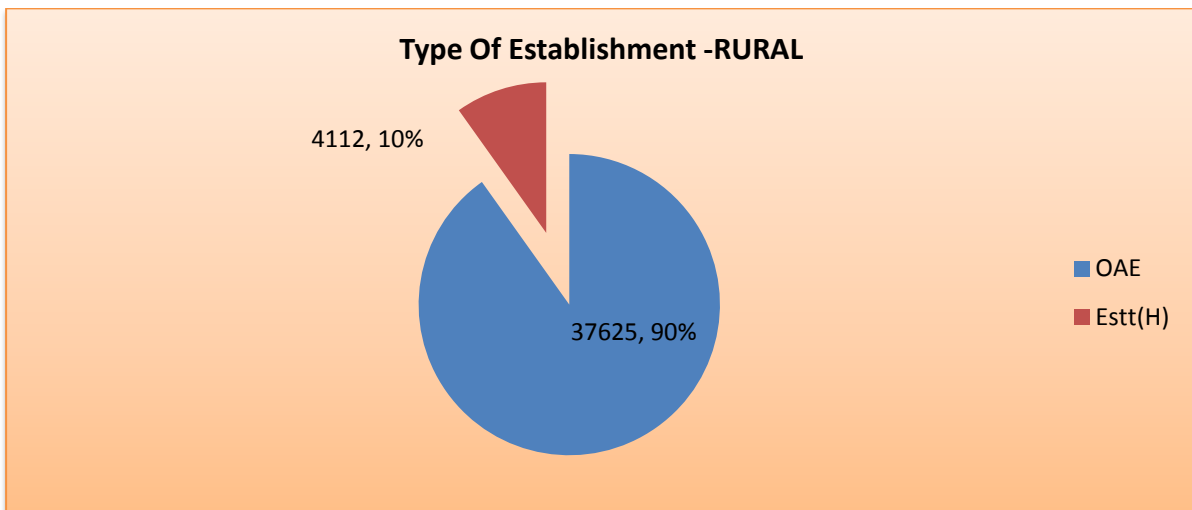

District-wise distribution of establishments shows that the total number of handicraft/ handloom establishments were 54437 in 6th Economic Census. Out of total 12700 handicraft/handloom establishments, in urban 80% units were found having no hired workers and remaining 20% of handicraft/ handloom establishments were with atleast one hired worker.

On the contrary, out of 41737 handicraft/handloom establishments in rural area, around 90% of enterprises were own account establishments. Remaining 10% of such establishments employed at least one hired worker in rural sector.

Among SC social group, highest number of SC group owner, district Samba ranks 1st and for ST social group, highest number of ST group owner, district Badgam ranks 1st.

Chapter Seven

Women Entrepreneurs

To see the gender equity a separate chapter based on economic census data on women entrepreneurship has been prepared. It has been observed that out of the total 5,01,949 establishments, 31292 are managed by women entrepreneurs in J&K which accounts for 6.23%. Total workers engaged in women owned and run establishments are 69067 which is 6.30% of the total workers engaged in J&K under different economic activities. Different aspects relating to the establishments run by women entrepreneurs are depicted in the Statement 7.1.

Out of the 31,292 establishments, 73.54% establishments are own account establishments i.e. establishments with no hired workers and remaining 26.46% were having at least one hired worker. Under the women owned establishments, as many as 95.83% are engaged in non-agriculture activities, only 1306 establishments (4.17%) are engaged in agricultural enterprises under women entrepreneurship.

Statement 7.1: Total No. of establishments under Women Entrepreneurs by Broad activity, sector (Rural/Urban/Combined) and type of establishment(Without Hired Workers, With Hired Workers and all)

Statement 7.16 shows District wise number of person working in the establishments by Social group. Under the different Social group, Schedule Caste (SC) comprises 4.25%, Schedule Tribe (ST) 4.61%, Other Backward Classes (OBC) 5.56 % and Social Group 'Others' 85.58% of persons working in the establishments owned by women entrepreneurs.

Chapter Eight

Comparison of Results of Economic Censuses 1998, 2005 & 2013

The first Economic Census was conducted in 1977, and subsequently 2nd, 3rd, 4th and 5th Economic Censuses were conducted in 1980, 1990, 1998 and 2005 respectively. The 6th Economic Census was the latest held in the year 2013. In the present chapter a comparative study on last three Economic Censuses were done. Many changes have been observed among these censuses in terms of coverage, methodology, geography, economic activities, employment etc.

During the 4th and 5th Economic Censuses for rural area villages and for urban area Urban Frame Sample blocks created by NSSO (FOD) was taken as primary unit but in the 6th Economic Census, Enumeration Blocks (EBs) provided by the office of Registrar General India & Census Commissioner, Ministry of Home Affairs, Govt. of India were taken as primary units for both rural and urban sectors. The purpose of using the Census EBs in urban areas is to have a single/uniform map for lowest geographical units of urban areas, which would facilitate to synchronize the Economic Census results with the Population Census 2011.

Statement 9.1: Comparison of Establishments and Employment in last three Economic Censuses					
Items	Number of Establishments / Employment			Avg. Annual Growth(%)	
	1998 4 th EC	2005 5 th EC	2013 6 th EC	1998-2005	2005-2013

(i) Own Account Establishments	224562	226517	399420	0.12	9.54
(ii) Establishment (H)	249078	525015	696089	15.83	4.07
Employment by Sector					
(i) Agricultural	3892	6847	34181	10.85	49.90
(ii) Non-Agricultural	469748	744685	1061328	8.36	5.32
Average Employment Size	2.20	2.31	2.18		

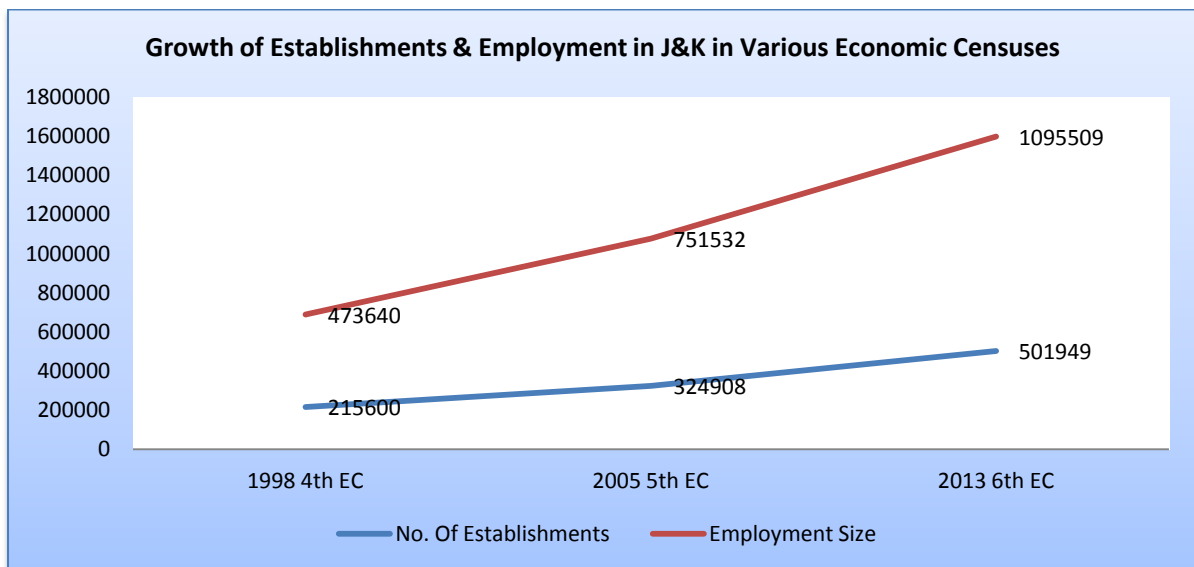

Statement 9.1 reveals that number of establishments in J&K is increasing steadily over the years. Annual growth rate was 7.24% in 5th economic census. Sixth economic census registered annual growth rate of 6.81%. In absolute term, there is an increase of 177041 establishments in sixth economic census over fifth economic census.

Establishments were further divided into two types namely, own account establishments (OAE) and establishments with at least one hired worker [Establishment (H)]. Economic censuses witnessed considerable increase in number of establishments in OAE category in 5th economic census recorded 4.53% growth while 6th Economic census witnessed 7.61% growth in OAE. Whereas in case of establishment (H) category growth by 14.58% and 5.41% has been recorded during 5th and 6th economic censuses respectively.

Proportion of agricultural enterprises per 100 non agricultural enterprises is 0.91, 0.80 and 3.43 in 4th, 5th and 6th Economic censuses respectively. Thus 6th EC has shown a considerable growth in case of agricultural establishments in J&k State.

Fifth economic censuses registered an annual growth of 8.38% employment in J&K, whereas, sixth economic census has experienced only 5.72% growth in the number of persons engaged in different entrepreneurial activities.

Pictorial presentation of growth in the number of establishments and employment therein is given in Graph.

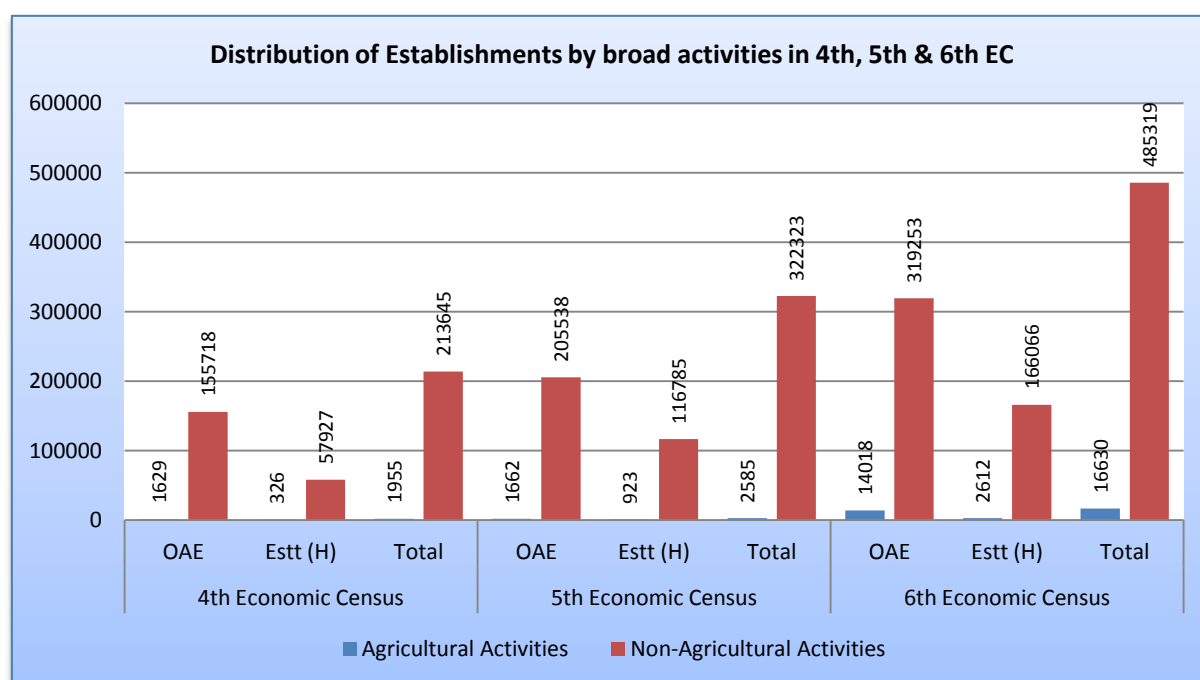

Year	Employment Size Class			Total
	1-5	6-9	10 & above	
5th EC (2005)	308497	10431	5980	324908
	94.94%	3.21%	1.85%	100.00%
6th EC (2013)	479318	15116	7515	501949
	95.49%	3.01%	1.50%	100.00%

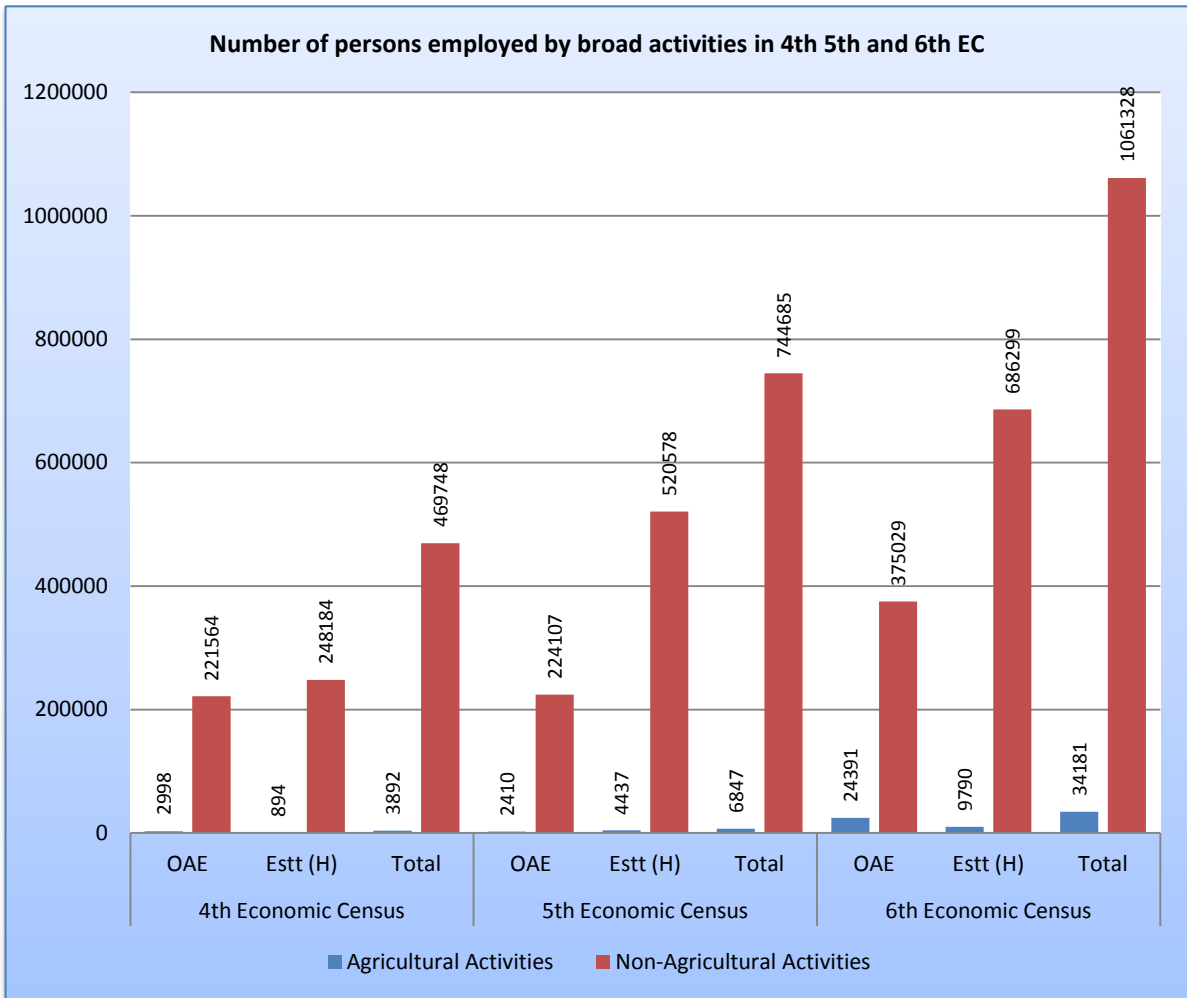

Statement 9.2 shows the number of establishments as per employment size class in the last two censuses. The percentage of establishments with number of workers 1-5,6-9 and 10 & above in total has shown increasing trend during last two censuses.

Major Economy Activity Group	4th Economic Census			5th Economic Census			6th Economic Census		
	OAE	Estt (H)	Total	OAE	Estt (H)	Total	OAE	Estt (H)	Total
Agricultural Activities	1629	326	1955	1662	923	2585	14018	2612	16630
Non-Agricultural Activities	155718	57927	213645	205538	116785	322323	319253	166066	485319
Total	157347	58253	215600	207200	117708	324908	333271	166678	501949

Statement 9.3 depicts the distribution of establishments by major economic activity groups namely, Agricultural activities and Non-Agricultural Activities. The percentage share of non-agricultural activities in 4th, 5th, and 6th ECs is 99.09% , 99.20% and 96.69% . Role of agricultural sector was very nominal in the 4th EC and 5th EC. However in 6th EC agricultural sector has 3.31% share in economic activities of J&K.

Statement 9.4: Persons Employed by Major Economic Activities in last three Economic Censuses									
Major Economy Activity Group	4th Economic Census			5th Economic Census			6th Economic Census		
	OAE	Estt (H)	Total	OAE	Estt (H)	Total	OAE	Estt (H)	Total
Agricultural Activities	2998	894	3892	2410	4437	6847	24391	9790	34181
Non-Agricultural Activities	221564	248184	469748	224107	520578	744685	375029	686299	1061328
Total	224562	249078	473640	226517	525015	751172	399420	696089	1095509

Statement 9.4 reveals the number of persons employed by major economic activity groups namely, Agricultural activities, and Non-Agricultural Activities . The percentage share of persons employed in total, in Non-Agricultural establishments were 99.18%, 99.14% and 96.88% respectively in 4th, 5th , and 6th Economic census respectively. Contribution of agriculture sector to employment is negligible in 4th and 5th Economic census. However agricultural activities registered 3.12% employment in during 6th economic census in J&K State.
